

Petroferm Website Testing

Go to the Petroferm Test Site Home Page

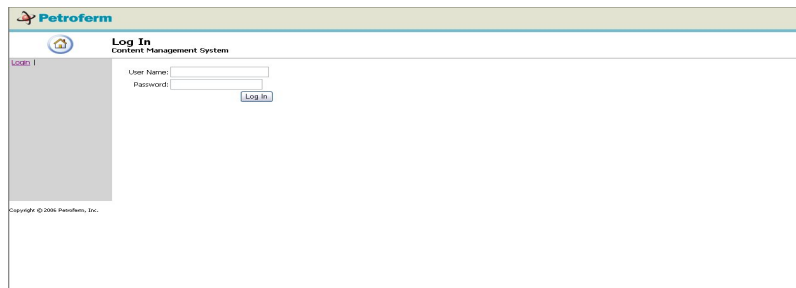

<http://ds1098.activeserve.com:9000>

From here you can go to the Content Management System or any of the existing business division home pages.

[Petroferm Inc.](#)
[Petroferm Cleaning Division Home](#)
[Petroferm Fuel and Oil Division](#)
[Lambent Technologies Corp.](#)
[Joseph Storey and Co, LTD](#)
[Content Management System](#) (requires login)

A. Log in to the Petroferm Content Management System

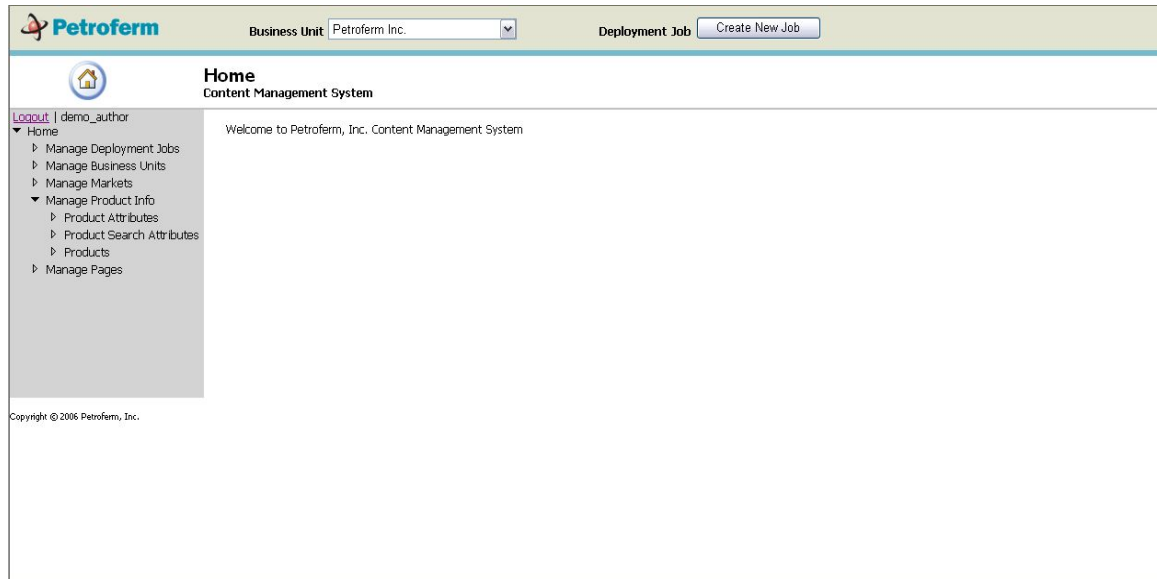

1. Click on the Content Management System to go to the Log In page.

The screenshot shows the Petroferm website's login interface. At the top is the Petroferm logo. Below it, the text "Log In" and "Content Management System" is displayed. On the left, there is a "Logout" link. The main area contains two input fields: "User Name:" and "Password:". To the right of the "Password:" field is a "Log In" button. At the bottom left, there is a small copyright notice: "Copyright © 2006 Petroferm, Inc."

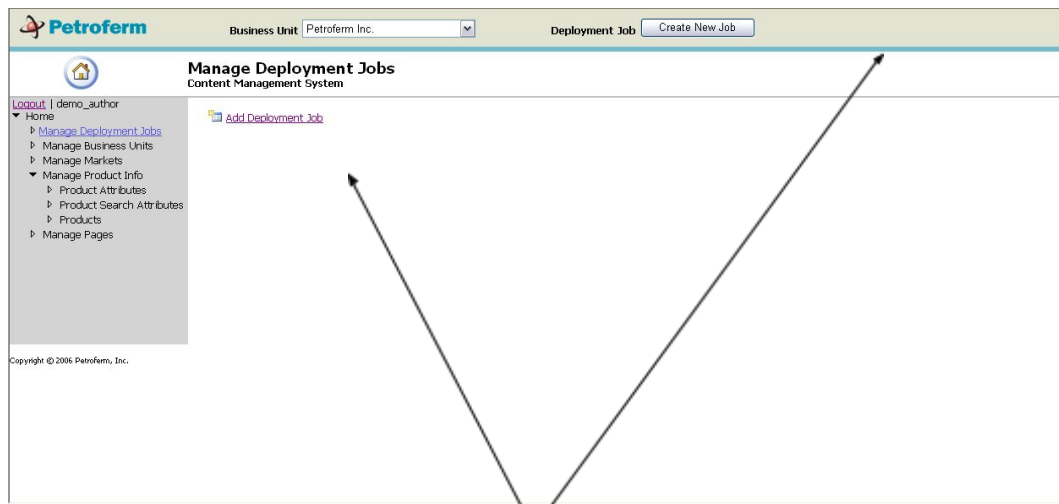

2. Log in using the following values:
 - User Name = demo_author
 - Password = !Petroferm2006

Petroferm Website Testing

B. Create a New Deployment Job

1. In order to make any changes to content, a deployment job must be created. Go to Manage Deployment Jobs using the left-side navigation.

2. You can either click on the Create New Job button at the top of the page or click the Add Deployment Job link from this page.

Petroform Website Testing

The screenshot shows the 'Add/Edit Deployment Job' form in the Petroform Content Management System. The top navigation bar includes the Petroform logo, a 'Business Unit' dropdown set to 'Petroform Inc.', and a 'Deployment Job' section with a 'Create New Job' button. The left sidebar contains a navigation menu with options like 'Home', 'Manage Deployment Jobs', 'Manage Business Units', 'Manage Markets', 'Manage Product Info', 'Product Attributes', 'Product Search Attributes', 'Products', and 'Manage Pages'. The main form area has fields for 'Job Name' (containing 'Demo Job'), 'Job Description' (containing 'This job is for testing the content management system.'), and 'Deployment Date' (set to '12/18/2006' with a calendar icon). At the bottom right of the form are 'Save and Close' and 'Cancel' buttons. A copyright notice 'Copyright © 2006 Petroform, Inc.' is at the bottom left.

Job Name: Demo Job

Job Description: This job is for testing the content management system.

Deployment Date: 12/18/2006

Save and Close Cancel

Copyright © 2006 Petroform, Inc.

3. Fill out the Job Name and Description, planned Deployment Date, and then click Save and Close to return to the Manage Deployment Jobs page, where the new job will be displayed and the Deployment Job at the top of the page will be set as the active Job.

The screenshot shows the 'Manage Deployment Jobs' page. The top navigation bar is similar to the previous page, but the 'Deployment Job' dropdown now shows 'Demo Job' and there is a 'Set Active Job' button. The left sidebar is identical. The main content area has a link 'Add Deployment Job' and a table listing deployment jobs. The table has columns for Job Name, Description, Workflow Status, Reviewed By, Approved By, Deployed By, Deployment Date, Last Modified Date, and Last Modified By. One job is listed: 'Demo Job' with a description 'This job is for testing the content management system.', status 'WORKING', and deployment date '12/18/2006 12:00:00 AM'. A copyright notice 'Copyright © 2006 Petroform, Inc.' is at the bottom left.

D. Manage Markets

1. Make sure that the active Business Unit is selected at the top of the page. In this case, the demo_author user has access to all business units. Typically users will have access to just one business unit instead of all of them and the context will be set automatically. Now, click the Manage Markets link in the left-side navigation and then click Add Market.

For the rest of the sections we will use the Cleaning Products Division to enter Product and Page information. The database has already been set up with what is currently on the production site for many of the pages within the existing business units.

Petroform Website Testing

D. Manage Product Attributes

The product attributes are used to store information about a product and specified when building product grids for product pages on the website.

1. Set the Business Unit to Cleaning Products Division and then click on the Product Attributes link in the left-side navigation. The list of pre-populated product attributes is displayed and you have the ability to delete, edit, or view each item. There are some which are marked read-only which means that they are default attributes which should not be deleted or edited. If you choose to delete an attribute that has already been deployed to the live site, it will be marked for deletion and deleted permanently when the job is deployed. If it was a new attribute never deployed, the attribute will be deleted instantly.

Petroferm Website Testing

2. Set the Business Unit back to the Cleaning Products Division by selecting it at the top of the page. You will be returned to the CMS Home page. Then click on the Product Search Attributes link to add a new Search Attribute for the Cleaning division.

The screenshot shows the Petroferm CMS interface. At the top, the 'Business Unit' is set to 'Petroferm Cleaning Division' and the 'Deployment Job' is 'Demo Job'. The main heading is 'Manage Search Attributes' with the subtitle 'Content Management System'. On the left is a navigation menu with options like 'Home', 'Manage Deployment Jobs', 'Manage Business Units', 'Manage Markets', 'Manage Product Info', 'Product Attributes', 'Product Search Attributes' (highlighted), 'Products', and 'Manage Pages'. The main content area has an 'Add Search Attribute' link and a 'Market' dropdown menu currently set to 'All Markets'. A copyright notice at the bottom reads 'Copyright © 2006 Petroferm, Inc.'.

3. Specify the market for this attribute and the name. If there were products created for this business unit, the listbox would list out products that meet this new search attribute, which you can add by clicking the Add Product. In this case, click Save and Close to return to the list of search attributes.

The screenshot shows the 'Add/Edit Search Attribute' page in the Petroferm CMS. The 'Business Unit' remains 'Petroferm Cleaning Division' and the 'Deployment Job' is 'Demo Job'. The main heading is 'Add/Edit Search Attribute' with the subtitle 'Content Management System'. The left navigation menu is identical to the previous screenshot, with 'Product Search Attributes' highlighted. The main content area contains a form with the following fields: 'Market' (dropdown set to 'Electronics Market'), 'Attribute Name' (text box with 'Demo Search Attribute'), 'Publish Date' (calendar icon showing '12/19/2006'), 'Expiration Date' (calendar icon), and 'Add Product' (a large empty listbox with an 'Add Product' button below it). At the bottom of the form are 'Save and Close' and 'Cancel' buttons. A copyright notice at the bottom reads 'Copyright © 2006 Petroferm, Inc.'.

Petroferm Website Testing

The screenshot shows the Petroferm website interface. At the top, there is a header with the Petroferm logo, a 'Business Unit' dropdown menu set to 'Petroferm Cleaning Division', a 'Deployment Job' dropdown menu set to 'Demo Job', and a 'Set Active Job' button. Below the header, the main content area is titled 'Manage Search Attributes' with the subtitle 'Content Management System'. On the left side, there is a navigation menu with links: 'Logout | demo_author', 'Home', 'Manage Deployment Jobs', 'Manage Business Units', 'Manage Markets', 'Manage Product Info' (expanded), 'Product Attributes', 'Product Search Attributes', 'Products', and 'Manage Pages'. The main content area features an 'Add Search Attribute' link and a table with the following data:

Attribute Name	Market	Workflow Status	Publish Date	Expire Date	Job Name	Last Modified	Marked for Deletion
Demo Search Attribute	Electronics Market	WORKING	12/19/2006	12/19/2036	Demo Job	12/19/2006 1:51 AM	No

At the bottom of the page, there is a copyright notice: 'Copyright © 2006 Petroferm, Inc.'

E. Manage Products

1. Click the Products link on the left-side navigation to view the Manage Products page, and then click the Add Product.

The screenshot shows the Petroferm website interface for the 'Manage Products' page. The header is identical to the previous screenshot. The main content area is titled 'Manage Products' with the subtitle 'Content Management System'. On the left side, the navigation menu is the same, but the 'Products' link is highlighted. The main content area features an 'Add Product' link. At the bottom of the page, there is a copyright notice: 'Copyright © 2006 Petroferm, Inc.'

2. The product add/edit is a multi-step process: General Information, Attributes, Search Attributes, and Documents. Enter information for the General Info step and then click next.

Petroferm Website Testing

The screenshot shows the Petroferm 'Add/Edit Product' form in the 'General Info' step. The form is titled 'Add/Edit Product' and 'Content Management System'. The left sidebar contains a navigation menu with options like 'Home', 'Manage Deployment Jobs', 'Manage Business Units', 'Manage Markets', 'Manage Product Info', 'Product Attributes', 'Product Search Attributes', 'Products', and 'Manage Pages'. The main form area has a blue sidebar with links for '1 - General Info', '2 - Attributes', '3 - Search Attributes', and '4 - Documents'. The main content area includes fields for 'Product Name' (Demo Product), 'Keywords' (Keywords for Demo Product), 'Blurb' (Blurb for Demo Product), 'Approvals' (Approvals for Demo Product), 'Publish Date' (12/19/2006), and 'Expiration Date'. A 'Set Active Job' button is visible in the top right. The bottom of the form has 'Next' and 'Cancel' buttons.

- Going to Step 2 the product is created along with a default Attribute Name/Value for the product name. Select another Attribute to enter a corresponding value. A textbox will display for you to enter the value. If there were other products created, you have the option of choosing from existing values from other products, either single values or multiple values.

The screenshot shows the Petroferm 'Add/Edit Product' form in the 'Attributes' step. The form is titled 'Add/Edit Product' and 'Content Management System'. The left sidebar contains a navigation menu with options like 'Home', 'Manage Deployment Jobs', 'Manage Business Units', 'Manage Markets', 'Manage Product Info', 'Product Attributes', 'Product Search Attributes', 'Products', and 'Manage Pages'. The main form area has a blue sidebar with links for '1 - General Info', '2 - Attributes', '3 - Search Attributes', and '4 - Documents'. The main content area includes a 'Product Name' field (Demo Product), an 'Add Attribute Value' section with a dropdown menu, and a table listing attributes. The table has columns for 'Attribute Name', 'Attribute Value', 'Workflow Status', 'Publish Date', 'Expire Date', 'Job Name', 'Last Modified', and 'Marked for Deletion'. The bottom of the form has 'Previous', 'Next', and 'Cancel' buttons.

Petroferm Website Testing

The screenshot shows the Petroferm website's 'Add/Edit Product' interface. The top navigation bar includes the Petroferm logo, 'Business Unit' (Petroferm Cleaning Division), 'Deployment Job' (Demo Job), and a 'Set Active Job' button. The left sidebar contains a navigation menu with options like 'Home', 'Manage Deployment Jobs', 'Manage Business Units', 'Manage Markets', and 'Manage Product Info'. The main content area is titled 'Add/Edit Product' and 'Content Management System'. It features a 'Product Name' field with 'Demo Product', a 'Market' dropdown set to 'Electronics Market', and a 'Search Attribute' text area containing 'Demo Search Attribute'. Below the text area is an 'Add Search Attribute' button. At the bottom right are 'Previous', 'Next', and 'Cancel' buttons. A copyright notice 'Copyright © 2006 Petroferm, Inc.' is visible at the bottom left.

6. Select the search attribute in the box and click Add Search Attribute. Now this product will be searchable by this search attribute in the Advance Search on the website.

This screenshot shows the same 'Add/Edit Product' page, but now with a table of search attributes. The 'Search Attribute' text area is empty. Below the 'Add Search Attribute' button is a table with the following data:

Search Attribute	Market Name	Workflow Status	Publish Date	Expire Date	Job Name	Last Modified	Marked for Deletion
Demo Search Attribute	Electronics Market	WORKING	12/19/2006	12/19/2036	Demo Job	12/19/2006 2:03 AM	No

The 'Previous', 'Next', and 'Cancel' buttons are still present at the bottom right. The copyright notice 'Copyright © 2006 Petroferm, Inc.' is at the bottom left.

7. Click Next to go to the Documents step.

F. Deploy Job

Now that some content is created for the job, we can deploy it to the live site. The process of deployment goes through workflow steps to ensure that the content is reviewed and approved before being deployed. Here are the different stages of a job:

Roles

There are defined roles to handle the job workflow status process. Here are the roles. A user may be a member of one or more roles.

Reader: A person in this role cannot make any changes to content or the job status.

Author: A person in this role may make any changes to content and may set the job status to PENDING REVIEW only if the current job status is WORKING. Otherwise, the job status and all content within the job is read-only.

Reviewer: A person in this role may make any changes to content and may set the job status to PENDING APPROVAL only if the current job status is PENDING REVIEW. Otherwise, the job status and all content within the job is read-only.

Approver: A person in this role may make any changes to content and may set the job status to PENDING DEPLOYMENT only if the current job status is PENDING APPROVAL. Otherwise, the job status and all content within the job is read-only.

Deployer: A person in this role may make any changes to content and may set the job status to LIVE only if the current job status is PENDING DEPLOYMENT.

1. Since we're signed in as the user "demo_author" the job, which is currently set to WORKING, we can set the job to PENDING REVIEW. Click on Manage Deployment Jobs on the left-side navigation to list the active jobs and then click on the "View Details"  icon to view the details of the job.

The screenshot shows the Petroferm Content Management System interface. At the top, there's a header with the Petroferm logo, a Business Unit dropdown set to "Petroferm Cleaning Division", a Deployment Job dropdown set to "Demo Job", and a "Set Active Job" button. Below the header, the main content area is titled "Manage Deployment Jobs" and "Content Management System". On the left, there's a navigation menu with links like "Home", "Manage Deployment Jobs", "Manage Business Units", "Manage Markets", "Manage Product Info", "Product Attributes", "Product Search Attributes", "Products", and "Manage Pages". The main content area displays a table of deployment jobs. The table has columns for Job Name, Description, Workflow Status, Reviewed By, Approved By, Deployed By, Deployment Date, Last Modified Date, and Last Modified By. A single job is listed: "Demo Job" with a description "This job is for testing the content management system.", a status of "WORKING", and deployment details for 12/18/2006 12:00:00 AM, last modified by Demo Author on 12/19/2006 2:23 AM.

Job Name	Description	Workflow Status	Reviewed By	Approved By	Deployed By	Deployment Date	Last Modified Date	Last Modified By
Demo Job	This job is for testing the content management system.	WORKING				12/18/2006 12:00:00 AM	12/19/2006 2:23 AM	Demo Author

2. The Deployment Job Detail page will display the job information and all of the related changes in summary format. If any changes need to be made, there are links to go to the respective pages to do that.
